

Report Identification Number: NY-19-080

Prepared by: New York City Regional Office

Issue Date: Dec 27, 2019

This report, prepared pursuant to section 20(5) of the Social Services Law (SSL), concerns:

- A report made to the New York Statewide Central Register of Child Abuse and Maltreatment (SCR) involving the death of a child.
- The death of a child for whom child protective services has an open case.
- The death of a child whose care and custody or custody and guardianship has been transferred to an authorized agency.
- The death of a child for whom the local department of social services has an open preventive service case.

The Office of Children and Family Services (OCFS) is mandated by section 20 of the SSL to investigate or cause for the investigation of the cause and circumstances surrounding the death, review such investigation, and prepare and issue a fatality report in regard to the categories of deaths noted above involving a child, except where a local or regional fatality review team issues a report, as authorized by law.

Such report must include: the cause of death; the identification of child protective or other services provided or actions taken regard to such child and child’s family; any extraordinary or pertinent information concerning the circumstances of the child’s death; whether the child or the child’s family received assistance, care or services from the social services district prior to the child’s death; any action or further investigation undertaken by OCFS or the social services district since the child’s death; and as appropriate, recommendations for local or state administrative or policy changes.

This report contains no information that would identify the deceased child, his or her siblings, the parent, parents, or other persons legally responsible for the child, and any members of the deceased child’s household.

By statute, this report will be forwarded to the social services district, chief county executive officer, chairperson of the local legislative body of the county where the child died and the social services district that had legal custody of the child, if different. Notice of the issuance of this report will be sent to the Speaker of the Assembly and the Temporary President of the Senate of the State of New York.

This report may **only** be disclosed to the public by OCFS pursuant to section 20(5) of the SSL. **It may be released by OCFS only after OCFS has determined that such disclosure is not contrary to the best interests of the deceased child’s siblings or other children in the household.**

OCFS’ review included an examination of actions taken by individual caseworkers and supervisors within the social services district and agencies under contract with the social services district. The observations and recommendations contained in this report reflect OCFS’ assessment and the performance of these agencies.

Case Information

Report Type: Child Deceased
Age: 5 month(s)

Jurisdiction: Kings
Gender: Female

Date of Death: 07/02/2019
Initial Date OCFS Notified: 07/02/2019

Presenting Information

The narrative of the report alleged on 7/2/19, the five-month-old SC, an otherwise healthy child, passed away due to unknown reasons while in the care and supervision of the BM and the BF.

Executive Summary

On 7/2/19, the five-month-old SC passed away while in the care and supervision of her parents. The ME determined the SC's cause of death was congenital anomalous origin of the left coronary artery. The manner of death was natural. According to ACS' case documentation, the SC was fussy the night prior to her passing with possible constipation. The BM placed the SC down on her back in the crib, massaged the SC's stomach and performed leg exercises to sooth her. The SC stopped crying and fell asleep. The BM then went back to sleep. At about 5:00AM, the BM woke up and checked the SC. The SC felt cold and her skin appeared pale. The BM immediately woke the BF up and told him that the SC was cold. The BM called 911 and gave the SC CPR while the BF was getting dressed. The BM was CPR certified. The PGM also woke up, ran outside of the home and flagged down a motorist for help. The motorist who happened to be a nurse, came on the scene and continued CPR on the SC. The family then transported the SC to the hospital where the hospital staff later pronounced her deceased. The hospital staff did not provide an official time of death for the SC.

On 7/2/19, ACS received the SCR report and initiated the CPS fatality investigation in a timely manner. During the investigation, ACS made collateral contact with hospital staff, the ME, LE and numerous family members. ACS did not find any evidence that the parents delayed seeking medical attention or that they created an unsafe sleeping environment for the SC. The ME and the hospital staff did not report any trauma to the SC's body. Additionally, LE did not deem the SC's death criminal in nature and no arrest was made.

During casework contacts with the family, ACS did not observe any safety concerns regarding the SS. She received regular medical care and did not have any special medical needs. Also, she attended school regularly and did not have any academic or behavioral concerns. Throughout the investigation, ACS discussed service referrals with the family; however, the family declined to participate in any services including ACS and hospital related referrals. The BM said she was going to rely on her employer to recommend services for her. The family explored school-based counseling/services for the SS. The family asked the school staff to monitor the SS for any behavioral/academic changes and offer her counseling if necessary.

On 11/1/19, ACS unsubstantiated the allegations of the report against the parents. ACS based its decision on the ME's autopsy findings, which indicated the SC died due to an underlying medical condition. Also, ACS did not find any evidence that the parents delayed seeking medical attention or that the parents created an unsafe sleeping environment for the SC. The parents provided the SC with a minimum degree of care. The SC had adequate shelter and sleeping arrangements. She received adequate medical care and her immunizations were current.

Findings Related to the CPS Investigation of the Fatality

Safety Assessment:

- Was sufficient information gathered to make the decision recorded on the:
 - Approved Initial Safety Assessment? Yes
 - Safety assessment due at the time of determination? Yes
- Was the safety decision on the approved Initial Safety Assessment appropriate? Yes

Determination:

- Was sufficient information gathered to make determination(s) for all allegations as well as any others identified in the course of the investigation? Yes, sufficient information was gathered to determine all allegations.
- Was the determination made by the district to unfound or indicate appropriate? Yes

Was the decision to close the case appropriate? Yes

Was casework activity commensurate with appropriate and relevant statutory or regulatory requirements? Yes

Was there sufficient documentation of supervisory consultation? Yes, the case record has detail of the consultation.

Explain:
There were no concerns for the SS in the care of her parents and ACS' decision to close the case was appropriate.

Required Actions Related to the Fatality

Are there Required Actions related to the compliance issue(s)? Yes No

Fatality-Related Information and Investigative Activities

Incident Information

Date of Death: 07/02/2019

Time of Death: Unknown

Time of fatal incident, if different than time of death: Unknown

County where fatality incident occurred: Kings

Was 911 or local emergency number called? Yes

Time of Call: Unknown

Did EMS respond to the scene? No

At time of incident leading to death, had child used alcohol or drugs? No

Child's activity at time of incident:

- Sleeping
- Working
- Driving / Vehicle occupant
- Playing
- Eating
- Unknown

Other

Did child have supervision at time of incident leading to death? Yes

At time of incident supervisor was: Not impaired.

Total number of deaths at incident event:

Children ages 0-18: 1

Adults: 0

Household Composition at time of Fatality

Household	Relationship	Role	Gender	Age
Deceased Child's Household	Deceased Child	Alleged Victim	Female	5 Month(s)
Deceased Child's Household	Father	Alleged Perpetrator	Male	33 Year(s)
Deceased Child's Household	Mother	Alleged Perpetrator	Female	32 Year(s)
Deceased Child's Household	Sibling	No Role	Female	7 Year(s)

LDSS Response

On 7/2/19, ACS contacted the hospital staff and LE. The hospital staff stated there were no signs of trauma to the SC's body. The staff did not provide the official time of death for the SC. LE stated the BM re-enacted the incident and the family's explanation seemed plausible. LE did not suspect any criminality and no arrest would be made pending the autopsy findings.

ACS was unable to interview the family because they were grieving; however, ACS assessed the SS' safety and there were no concerns. The family members did not report any medical or developmental concerns for the SC prior to the incident. They stated the parents were good and attentive parents. They denied the parents engaged in DV.

On 7/5/19, ACS visited the family. The parents repeated the account of events leading up to the BM finding the SC unresponsive which was consistent with the information that was already known. They stated they decided to transport the SC to the hospital prior to EMS' arrival because the 911 operator was "asking too many questions." They denied the SC had any medical conditions or health concerns. The BM stated she had certification in CPR.

On 7/8/19, the ME reported at autopsy, the SC was not observed with any injuries. The final autopsy was pending further studies.

On 7/16/19, ACS received the children's medical records from the pediatrician. The children's immunizations were current.

On 7/25/19, home visit ACS observed the SS with no suspicious marks or bruises on her body. The BM refused to sign a HIPAA.

On 8/15/19, ACS held a CSC. The CSC recommended service referral for bereavement counseling with a community-based agency.

On 8/15/19, ACS visited the family. ACS observed the SS to safe in the home at the time of the visit. ACS provided the BM with a referral for bereavement counseling. The BM stated that she had an appointment with a private therapist. The

BM stated the family was coping with their loss.

On 8/28/19, the BM reported the ME contacted her and stated that the cause of death was cardiac arrest.

On 9/4/19, the ME reported that the SC's cause of death was natural, due to congenital anomalous origin of the left coronary artery.

Between 9/18/19 and 10/29/19, ACS made multiple casework visits to the family. ACS did not observe any safety concerns regarding the SS during the visits. The BM stated the family was coping with the SC's death. The BM stated she was yet to find a service provider that she liked and that her employer was going to recommend a suitable provider to her.

On 11/1/19, ACS unsubstantiated the allegations of the report against the parents.

Official Manner and Cause of Death

Official Manner: Natural

Primary Cause of Death: From a medical cause

Person Declaring Official Manner and Cause of Death: Medical Examiner

Multidisciplinary Investigation/Review

Was the fatality investigation conducted by a Multidisciplinary Team (MDT)? Yes

Was the fatality reviewed by an OCFS approved Child Fatality Review Team? No

Comments: There is no OCFS approved Child Fatality Review Team in the New York City region.

SCR Fatality Report Summary

Alleged Victim(s)	Alleged Perpetrator(s)	Allegation(s)	Allegation Outcome
050661 - Deceased Child, Female, 5 Mons	050662 - Mother, Female, 32 Year(s)	Inadequate Guardianship	Unsubstantiated
050661 - Deceased Child, Female, 5 Mons	050663 - Father, Male, 33 Year(s)	Inadequate Guardianship	Unsubstantiated
050661 - Deceased Child, Female, 5 Mons	050662 - Mother, Female, 32 Year(s)	DOA / Fatality	Unsubstantiated
050661 - Deceased Child, Female, 5 Mons	050663 - Father, Male, 33 Year(s)	DOA / Fatality	Unsubstantiated

CPS Fatality Casework/Investigative Activities

	Yes	No	N/A	Unable to Determine
All children observed?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
When appropriate, children were interviewed?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Alleged subject(s) interviewed face-to-face?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
All 'other persons named' interviewed face-to-face?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Child Fatality Report

Contact with source?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
All appropriate Collaterals contacted?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Was a death-scene investigation performed?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Was there discussion with all parties (youth, other household members, and staff) who were present that day (if nonverbal, observation and comments in case notes)?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Coordination of investigation with law enforcement?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Fatality Safety Assessment Activities

	Yes	No	N/A	Unable to Determine
Were there any surviving siblings or other children in the household?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Was there an adequate assessment of impending or immediate danger to surviving siblings/other children in the household named in the report:				
Within 24 hours?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
At 7 days?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
At 30 days?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Was there an approved Initial Safety Assessment for all surviving siblings/ other children in the household within 24 hours?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Are there any safety issues that need to be referred back to the local district?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

When safety factors were present that placed the surviving siblings/other children in the household in impending or immediate danger of serious harm, were the safety interventions, including parent/caretaker actions adequate?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
---	-------------------------------------	--------------------------	--------------------------	--------------------------

Fatality Risk Assessment / Risk Assessment Profile

	Yes	No	N/A	Unable to Determine
Was the risk assessment/RAP adequate in this case?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
During the course of the investigation, was sufficient information gathered to assess risk to all surviving siblings/other children in the household?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Was there an adequate assessment of the family's need for services?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Did the protective factors in this case require the LDSS to file a petition in Family Court at any time during or after the investigation?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Were appropriate/needed services offered in this case	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Placement Activities in Response to the Fatality Investigation

	Yes	No	N/A	Unable to Determine
Did the safety factors in the case show the need for the surviving siblings/other children in the household be removed or placed in foster care at any time during this fatality investigation?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Were there surviving children in the household that were removed either as a result of this fatality report / investigation or for reasons unrelated to this fatality?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Legal Activity Related to the Fatality

Was there legal activity as a result of the fatality investigation? There was no legal activity.

Were services provided to siblings or other children in the household to address any immediate needs and support their well-being in response to the fatality? No

Explain:

The family declined services for the SS.

Were services provided to parent(s) and other care givers to address any immediate needs related to the fatality? No

Explain:

The family declined services.

History Prior to the Fatality

Child Information

- Did the child have a history of alleged child abuse/maltreatment? No
- Was the child ever placed outside of the home prior to the death? No
- Were there any siblings ever placed outside of the home prior to this child's death? No
- Was the child acutely ill during the two weeks before death? No

Infants Under One Year Old

During pregnancy, mother:

- Had medical complications / infections
- Misused over-the-counter or prescription drugs
- Experienced domestic violence
- Was not noted in the case record to have any of the issues listed
- Had heavy alcohol use
- Smoked tobacco
- Used illicit drugs

Infant was born:

- Drug exposed
- With neither of the issues listed noted in case record
- With fetal alcohol effects or syndrome

CPS - Investigative History Three Years Prior to the Fatality

There is no CPS investigative history in NYS within three years prior to the fatality.

CPS - Investigative History More Than Three Years Prior to the Fatality

The family did not have any prior SCR history.

Known CPS History Outside of NYS

The family did not have any known CPS history outside of New York State.

Legal History Within Three Years Prior to the Fatality

Was there any legal activity within three years prior to the fatality investigation? There was no legal activity

Recommended Action(s)

Are there any recommended actions for local or state administrative or policy changes? Yes No

Are there any recommended prevention activities resulting from the review? Yes No
