

## Report Identification Number: RO-20-003

Prepared by: New York State Office of Children & Family Services

Issue Date: Jul 22, 2020

This report, prepared pursuant to section 20(5) of the Social Services Law (SSL), concerns:

- A report made to the New York Statewide Central Register of Child Abuse and Maltreatment (SCR) involving the death of a child.
- The death of a child for whom child protective services has an open case.
- The death of a child whose care and custody or custody and guardianship has been transferred to an authorized agency.
- The death of a child for whom the local department of social services has an open preventive service case.

The Office of Children and Family Services (OCFS) is mandated by section 20 of the SSL to investigate or cause for the investigation of the cause and circumstances surrounding the death, review such investigation, and prepare and issue a fatality report in regard to the categories of deaths noted above involving a child, except where a local or regional fatality review team issues a report, as authorized by law.

Such report must include: the cause of death; the identification of child protective or other services provided or actions taken regard to such child and child’s family; any extraordinary or pertinent information concerning the circumstances of the child’s death; whether the child or the child’s family received assistance, care or services from the social services district prior to the child’s death; any action or further investigation undertaken by OCFS or the social services district since the child’s death; and as appropriate, recommendations for local or state administrative or policy changes.

This report contains no information that would identify the deceased child, his or her siblings, the parent, parents, or other persons legally responsible for the child, and any members of the deceased child’s household.

By statute, this report will be forwarded to the social services district, chief county executive officer, chairperson of the local legislative body of the county where the child died and the social services district that had legal custody of the child, if different. Notice of the issuance of this report will be sent to the Speaker of the Assembly and the Temporary President of the Senate of the State of New York.

This report may **only** be disclosed to the public by OCFS pursuant to section 20(5) of the SSL. **It may be released by OCFS only after OCFS has determined that such disclosure is not contrary to the best interests of the deceased child’s siblings or other children in the household.**

OCFS’ review included an examination of actions taken by individual caseworkers and supervisors within the social services district and agencies under contract with the social services district. The observations and recommendations contained in this report reflect OCFS’ assessment and the performance of these agencies.

## Case Information

**Report Type:** Child Deceased  
**Age:** 1 month(s)

**Jurisdiction:** Monroe  
**Gender:** Male

**Date of Death:** 02/07/2020  
**Initial Date OCFS Notified:** 02/07/2020

## Presenting Information

An SCR report alleged that on 2/6/20, the mother put the one-month-old male infant in her bed. The mother was co-sleeping with the infant, and at an unknown time, the mother rolled over and found the infant unresponsive. The cousin began CPR and 911 was called. When EMS arrived, the infant had no pulse. EMS performed CPR and life-saving measures and transported the infant to the hospital. The infant passed away at the hospital at 1:48 AM. The mother failed to provide an explanation for the infant's death and the infant was otherwise healthy. The role of the mother's cousin was unknown.

## Executive Summary

On 2/7/20, the Monroe County Department of Human Services (MCDHS) received an SCR report regarding the death of the one-month-old male infant. At the time of the infant's death, he resided with his mother, the mother's adult cousin and the cousin's one-year-old child. MCDHS assessed the cousin's child to be safe and there were no concerns for his care.

Through a joint investigation with law enforcement, it was learned on the night of 2/6/20, the mother bottle fed the infant then laid him down to sleep on her bed. The mother fell asleep for about 20 minutes, then she woke up and went into the kitchen to get a drink. When she returned to the bedroom a few minutes later, around 1:05 AM, she realized the infant was cold and he was not breathing. She screamed for help and her cousin came into the bedroom and performed CPR while the mother called 911. EMS arrived and continued life saving measures on the way to the hospital in the ambulance. The infant was pronounced deceased at the hospital at 1:48 AM.

MCDHS interviewed family members and pertinent collateral sources. It was learned that the mother was aware of safe sleep guidelines and she typically utilized a cradle that went on top of her bed for the infant to sleep in. The infant was born with a minor heart condition and a chromosomal anomaly that he was receiving follow up medical care for.

An autopsy was performed, and the final report was pending at the time this report was written. The law enforcement investigation remained open pending the final autopsy results, and no charges had been filed.

The infant's father was incarcerated on an unrelated matter since 1/2/20. The father was interviewed in jail, and he had no concerns for the mother's care of the infant. It was learned that the father had a two-month-old child that resided with that child's mother. The father had limited contact with both children prior to being incarcerated. The two-month-old child was assessed to be safe in the care of the child's mother.

MCDHS provided the mother with information on burial assistance and grief services and at the time of case closure, it was unknown if she utilized these services. MCDHS unsubstantiated the allegations as there was a lack of credible evidence that the mother's actions or inactions caused the infant's death.

#### LDSS Response

MCDHS initiated their investigation upon receipt of the SCR report on 2/7/20. They reviewed SCR history, spoke to law enforcement, and reviewed law enforcement records from the incident.

MCDHS interviewed the mother and maternal grandparents at the maternal grandparent's home on 2/7/20. The maternal grandparents reported the infant appeared to be well when he left their home the previous evening around 8:00 PM, and they had no concerns for the infant.

The mother reported the infant was healthy and he had been sleeping and eating normally. The mother denied that she used any drugs or alcohol and she reported the infant was not on any medication. She said that on 2/6/20, she and the infant visited the maternal grandparent's home until between 8:00 and 9:00 PM, when her cousin gave them a ride home. Upon returning home, the mother fed the infant a bottle, and he appeared fine at that time. She said the infant normally slept in a bed-top bassinet on top of her bed, but on that night, she placed the infant to sleep directly on the bed next to her. She placed him on his back, on top of an infant receiving blanket, and there were no pillows or other items near the infant. The mother said she fell asleep for about 20 minutes, then she woke up and went into the kitchen to get a drink. When she returned to the bedroom around 1:05 AM, she kissed the infant and she realized that he was cold and not breathing. She screamed and her cousin came into the bedroom to assist her.

After speaking to the mother, MCDHS interviewed the mother's cousin and observed the cousin's child to appear well-

cared for. The cousin confirmed that she gave the mother and infant a ride home from the maternal grandparent's home the previous night. She said they then went their separate ways to their bedrooms to go to sleep and the infant appeared to be fine at that time. She was woken up around 1:00 AM when the mother screamed that the infant was not breathing. She ran into the mother's bedroom and handed the mother the phone so she could call 911. The cousin said the infant was in the mother's bed and she performed CPR until EMS arrived and took over. The cousin had no concerns for the mother's care of the infant.

MCDHS spoke to numerous collateral sources including family members, hospital staff, the father's probation officer, the medical examiner, and the father of the cousin's child. MCDHS received and reviewed records from the pediatrician, law enforcement, EMS, and the hospital. Pediatrician records showed the infant was healthy, he was up to date with well-child visits and immunizations, and his chromosomal anomaly and heart condition were being monitored. The infant was last seen by his cardiologist on 1/30/20, and there were no concerns for the infant's health at that time.
