

Report Identification Number: SV-16-043

Prepared by: Spring Valley Regional Office

Issue Date: Apr 07, 2017

This report, prepared pursuant to section 20(5) of the Social Services Law (SSL), concerns:

- A report made to the New York Statewide Central Register of Child Abuse and Maltreatment (SCR) involving the death of a child.
- The death of a child for whom child protective services has an open case.
- The death of a child whose care and custody or custody and guardianship has been transferred to an authorized agency.
- The death of a child for whom the local department of social services has an open preventive service case.

The Office of Children and Family Services (OCFS) is mandated by section 20 of the SSL to investigate or cause for the investigation of the cause and circumstances surrounding the death, review such investigation, and prepare and issue a fatality report in regard to the categories of deaths noted above involving a child, except where a local or regional fatality review team issues a report, as authorized by law.

Such report must include: the cause of death; the identification of child protective or other services provided or actions taken regard to such child and child's family; any extraordinary or pertinent information concerning the circumstances of the child's death; whether the child or the child's family received assistance, care or services from the social services district prior to the child's death; any action or further investigation undertaken by OCFS or the social services district since the child's death; and as appropriate, recommendations for local or state administrative or policy changes.

This report contains no information that would identify the deceased child, his or her siblings, the parent, parents, or other persons legally responsible for the child, and any members of the deceased child's household.

By statute, this report will be forwarded to the social services district, chief county executive officer, chairperson of the local legislative body of the county where the child died and the social services district that had legal custody of the child, if different. Notice of the issuance of this report will be sent to the Speaker of the Assembly and the Temporary President of the Senate of the State of New York.

This report may **only** be disclosed to the public by OCFS pursuant to section 20(5) of the SSL. **It may be released by OCFS only after OCFS has determined that such disclosure is not contrary to the best interests of the deceased child's siblings or other children in the household.**

OCFS' review included an examination of actions taken by individual caseworkers and supervisors within the social services district and agencies under contract with the social services district. The observations and recommendations contained in this report reflect OCFS' assessment and the performance of these agencies.

Presenting Information

A report was received in to the New York Statewide Central Register of Child Abuse and Maltreatment (SCR) on October 21, 2016, which alleged DOA/Fatality, Inadequate Guardianship, and Lack of Supervision of one year old male subject child. The SCR report stated that the Subject Child's aunt had laid child on his back on an adult size bed for a nap at approximately 11:30 AM. Aunt checked on child ten minutes later and he was still on his back sleeping. Then, twenty minutes later Aunt checked on child, this time child had rolled over onto his stomach, and had the blanket wrapped around his body, including his head. Child was not breathing at this time and 911 was contacted. Child was later pronounced dead.

Executive Summary

The investigation revealed that on October 21, 2016, the one year old SC was being supervised by his aunt at her residence. The aunt had laid child on his back on an adult size bed for a nap, surrounded him with pillows, and swaddled him in a blanket where he may have been unable to maneuver his hands. Approximately twenty minutes later, the aunt went back into the bedroom to check on child, found him facing down onto one of the pillows and noticed he was unresponsive. The aunt immediately asked her second floor tenant to help her. They both attempted to revive SC by performing chest compressions and at one point, the aunt placed rubbing alcohol on the child's chest as well as his forehead. The aunt's second floor tenant was the one who called 911. EMS personnel arrived to the residence, tended to the child, and then transported him to the local hospital. On arrival to the local hospital, staff attempted to revive child to no avail and the SC was pronounced dead at 1:05 PM.

According to hospital staff, there were no medical concerns with SC at the time of death. As per the Medical Examiner's Office, an autopsy was completed on the SC; however, the final was not ready at the time the CPS investigation was closed. The Medical Examiner mentioned the child did not appear to have any injuries to the body. The final autopsy report is still pending.

Home visits to assess the safety and well-being of SC's two-year-old sibling, were made and contact was maintained throughout the course of the investigation. There were no concerns noted in the home. The allegations on the report were determined to be unsubstantiated regarding the subjects, on behalf of the subject child for Inadequate Guardianship, Lack of Supervision, and DOA/Fatality. The family was offered bereavement counseling. The investigation was closed on December 9, 2016.

LDSS Response

Suffolk County Department of Social Services, (SCDSS), conducted an investigation into the allegations listed on the report. SCDSS made appropriate collateral contacts including the Medical Examiner, local law enforcement officials, service providers, medical professionals, relatives, and community resources. All subjects and other persons named on the report were interviewed and observed, and the allegations were discussed. Based on the numerous interviews, the Aunt's actions could not be proven to be a direct cause of the child's death. SCDSS conducted a historical check and criminal background search.

As per the Medical Examiner's Office, an autopsy was completed on the subject child; however, the final report was not ready at the time the CPS investigation was closed. The Medical Examiner mentioned the child did not appear to have any evidence of injuries to the body and the final autopsy report is still pending.

Home visits to assess the safety and well-being of subject child's 2-year-old sibling, were made and contact was maintained throughout the course of the investigation. SCDSS completed all Safety Assessments Profile (RAP) appropriate and timely. The Safety Assessments and Risk Assessment Profile did accurately reflect the circumstances of the case. The case notes were well documented and comprehensive. There was documentation of supervisory consultations highlighting the events of the case being deliberated and directives were imparted.

The investigation was closed on December 9, 2016. SCDSS's investigation revealed no credible evidence that SC was inadequately supervised at the time of his death. The allegations on the report were determined unsubstantiated regarding the Subjects. The family was offered bereavement counseling.
